

## Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those operating in North America. Clark has five major lines of forklifts across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive designs of lift trucks, with components covering more than 120,000 particular components for all of its automated equipment. Your regional Clark Supplier is your complete source for availability of all your components needs offered by Clark Totalift.

Clark's extraordinary Parts Distribution Centers are conveniently situated in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a very outstanding international support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is now a customary feature on every forklift.

Clark has a unrelenting mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the extremely economical and beneficial system of "Lean Production" for its assembly plants and application of resources. This system was developed to acknowledge the most effective method of production plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to perfect the effectiveness and excellence of their products while minimizing expenses. The new value engineering program combines progressive product growth and provides superior customer support and service within the industry.
