

## Meritor Parts

Meritor Part - Meritor is a leading international dealer which is proudly founded on a one hundred year tradition of quality and service. They specialize in a broad range of modules, integrated systems and parts to original machine manufacturers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's unique energy and believes that this particular energy contributes to their competitive advantage in the global operations. The business values their customers and wants to guarantee their success while anticipating their different requirements. Meritor begins with a philosophy that values diversity of people and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred people, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

By only hiring future focused staff, Meritor strongly feels these top-caliber workers will be able to quickly get used to to changing surroundings and exhibit the performance and commitment considered necessary in order to achieve results in the competitive materials handling trade. The business empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor provides their workers various possibilities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise axles, drivelines, braking and suspension systems intended for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of all their international engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group that is dedicated to ensuring optimum progress at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 nations.

They have their supplier network that is specially located to be able to support the growth of the business. Each regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each and every part of the trade. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also comprised of transactional Green Belts who apply Six Sigma tools to business methods and apply lean techniques.
