

Forklift Spreader Bar

Forklift Spreader Bar - Proudly operating since the year 1974, ELME Spreader AB is the largest independent spreader maker all over the world. They have been a devoted manufacturer of spreaders used for numerous applications like the swap bodies, trailers and handling of containers.

Engineering is done in house by utilizing all the most up-to-date CAD systems and FEM tools. The ELME business currently employs over one hundred twenty five employees. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers across the globe.

The ELME product collection offers spreaders intended for various container and trailer handling operations. Some of their inventory include: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers in addition to a huge range of attachments.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they made more than 1150 spreaders by way of utilizing top quality elements in order to ensure dependability and excellent standards while offering competitive prices. Major features of ELME consist of design simplicity, market reaction and ground-breaking modular spreader concept.
