

Electrical Parts for Forklifts

Forklift Electrical Parts - Forklifts together with various forklifts may have particular labels used in some hazardous locations. The mark indicates that this particular model of forklift meets the minimum standards of ANSI/UL 553 intended for electric lift trucks or ANSI/UL 558 intended for internal combustion engine forklifts.

Applications for marked lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Consult your local insurance carrier and Fire Marshall for further info about the approved uses of industrial powered trucks in your application.

If the particular lift truck meets the outlined standards, labels can be placed. A labeled forklift will show the type of designation located on the nameplate and will have a properly corresponding label put.
